Profile

MERN Stack Developer with hands-on internship experience developing full-stack web applications using MongoDB, Express.js, React.js, Node.js, and TypeScript. Experienced in building responsive React interfaces, developing and integrating RESTful APIs, and working with Prisma for backend data management. Hands-on experience with multi-tenant applications, API validation, debugging, and Git-based team development.

Professional Experience

Full Stack Developer Intern, *4 Hand Studio Pvt. Ltd* 04/2026 – 10/2026 | Kochi, Kerala

- Developed and maintained features for a multi-tenant CRM application as part of a development team, using MongoDB, Express.js, React.js, Node.js, and TypeScript.
- Contributed to the Chat Management and Notification modules across frontend and backend development.
- Integrated React.js components with RESTful APIs and used Prisma ORM for backend data access.
- Identified and resolved UI and API issues to improve application functionality and stability.
- Used Git and GitHub with feature branches and pull requests while collaborating with senior developers to complete assigned tasks.

MERN Stack Intern, *Softroniics* 06/2025 – 12/2025 | Kozhikode,Kerala

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developed and integrated RESTful APIs for CRUD operations and frontend-backend communication.
- Built responsive React.js interfaces using reusable components and modern React Hooks.
- Performed debugging and testing to identify and resolve application issues and support new feature development.

Education

BSc Computer Science, *Kannur University* 08/2022 – 03/2025 | Kannur,Kerala

Higher Secondary Education, *GHSS Korom* 06/2020 – 03/2022 | Kannur,Kerala

Skills

Technical skills

- Frontend: HTML, CSS, JavaScript, TypeScript, Bootstrap, React.js,Tailwind CSS, Ant Design.
- Backend: Node.js, Express.js, REST APIs, JWT Authentication.
- Database &ORM: MongoDB, Mongoose, Prisma ORM.
- Tools & Platforms: GitHub, VS Code, Postman, Figma

Soft skill

- Communication skills
- Problem-solving
- Time management
- Team collaboration

Projects

Expense Tracker 05/2026 – 06/2026

- Built a full-stack expense management application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication and role-based access control for User, Admin, and Super Admin roles.
- Developed expense CRUD operations, dashboards, filtering, and data visualization for effective expense tracking.
- Technologies Used: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Recharts.
